Hi Mike,

I hope you are doing well! I am guessing Tammy shared the information about my DuPont case, but, in case she has not yet, we agreed to an amendment to their previous consent order requiring the company to lower the level of PFOA to 0.07 ppb in the drinking water in West Virginia and Ohio near their Washington Works Facility in West Virginia. Here is a link:

<https://www.epa.gov/newsreleases/epa-amends-drinking-water-order-dupont>

Let me know if you have any questions. I am hoping to stop by sometime in the next couple of weeks to say hi!

Belated Happy New Year,  
Jenny
